

## Continuous Learning Learn • Collaborate • Perform

What do you look for in  
a learning management platform?

Ease of use

Robust performance analytics and  
reporting capability

Ability to track learning on the go

Social learning features

Intuitive interface to enable  
self-service

*Performance Driven By Learning*

### Explore Indecomm Learning's Yellow Platter Learning Management System (YP LMS)

Yellow Platter is a multi-tenant, out-of-box rapidly deployable Learning Management Platform built on current Microsoft technologies and SaaS architecture which:

- Enables configuration of layout and color schemes
- Supports AICC and SCORM packages
- Allows more than one administrator to work on different LMS components
- Includes social communication components—Blogs and Forums
- Supports 39 different languages
- Offers multiple pre-defined report formats to track user activities
- Facilitates learning on the go

Provide a simple to use learning management platform to your employees  
to learn, collaborate, and perform!

## YP LMS:

- Reduces your cost by employing self-service functionalities
- Maximizes user experience with an intuitive and easy to use graphical user interface
- Provides robust performance analytics and reporting capabilities
- Maximizes your data security through role based access

## Your P & L benefits from:

- Reduced Licensing and Implementation cost
- Reduced calls to contact center
- Shortened deployment cycle

### About Indecomm Learning

For over a decade, Indecomm Learning has partnered with businesses and governments across the globe to provide effective learning solutions. We identify the best solution for our clients through consultative engagement and have a track record of over 30,000 hours of learning content design, development, and deployment. Through our solutions, we strive to enhance the performance of an individual and the organization. We have received numerous awards, including the 2013 Asian Quality Leadership Award and two Brandon Hall Excellence Awards.

Indecomm has also been recognized by TrainingIndustry.com.
